TO: Current and Incoming Medical Students
FROM: Paula A. Treichler, Ph.D., Director
Summer Course in Medicine and Society
DATE: April 6, 1984
RE: Sociomedical Summer Course, Summer 1984

Paula A. Treichler

Special Topics in Medicine and Society ("the summer sociomedical course") will begin Monday, June 11, 1984, and continue through Friday, August 3, 1984. The course is listed as Sociology 396; students register for a lecture/discussion section and a lab/practicum section which together total 6 hours or 2 units and constitute a full summer session courseload. The course meets Monday through Friday from 10 a.m. until 12 noon in 356B Medical Sciences Building. Requirements for the course include passing a midterm and final examination, completing a final project, and participating in a series of lab/practicum experiences including a two-day clinical practicum in Chicago.

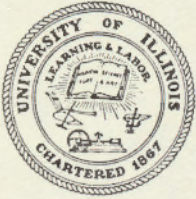

A current course description and last year's summer schedule is on the back of this memo. This summer's schedule, a syllabus, lecture outline, and reading list are in preparation.

I will be happy to talk with you about the course--goals, content, and where it might best fit into your own individual schedule. The course is a required curriculum component for obtaining the M.D. degree at Urbana-Champaign;* it is open to graduate students as well. Registration for this summer is June 7 and 8, 1984. If you have other questions, you may reach me at 333-0738 or 356-0649 or leave a note in 190 Medical Sciences Building.

SUMMER COURSE IN MEDICINE AND SOCIETY

Summer 1984

June 11-August 3

Course Description

Sociology 396

SPECIAL TOPICS IN MEDICINE AND SOCIETY

Call no.: 01143

Lecture/Discussion: Interdisciplinary Approaches to Medicine and Society.

Lecture/discussion course for students in the health professions and health care research addresses social aspects of medicine and health care. Faculty from the humanities, social sciences, and health professions cover such topics as social and cultural approaches to health and disease, communication in medical settings, health care organizations, medical economics, medical ethics, public health care policy, and the professionalization process. Open to medical students, graduate students, and advanced undergraduates. THE LECTURE AND LAB SECTIONS ARE TAKEN TOGETHER FOR A TOTAL OF 6 HOURS/2 UNITS.

Time: MTWTh 10-12 noon
Place: 356B Medical Sciences Building
Instructor: Dr. Paula A. Treichler

Medicine and Society Lab

In laboratory sessions, small group working sessions, tutorial meetings, and clinical practicums, students will explore relevant sociomedical topics and issues for health care research and practice. Under faculty supervision, students will work on individual research projects that link theoretical material to clinical settings. Open to medical students, graduate students, and advanced undergraduates. THE LECTURE AND LAB SECTIONS ARE TAKEN TOGETHER FOR A TOTAL OF 6 HOURS/2 UNITS.

Time: F 10-12 noon and by arrangement
Place: 356B Medical Sciences Building
Instructor: Dr. Paula A. Treichler
